Advanced Research Peptide Portfolio

Research By Innovation

A Division of Allied American Development LLC

Advancing Research Through Innovation

AMG Compounds develops premium research peptide formulations designed to support scientific investigation in metabolic health, recovery mechanisms, growth hormone signaling, longevity science, and performance research.

Through a commitment to consistency, quality, and innovation, AMG Compounds continues to expand its portfolio of advanced peptide technologies.

Innovation • Quality • Consistency • Product Integrity • Research Excellence

Research By Innovation

Our mission is to support scientific discovery through premium-quality peptide formulations and advanced research technologies.

We strive to provide researchers with reliable compounds designed to facilitate innovation, performance research, metabolic investigations, regenerative science, and longevity-focused studies.

Innovation • Quality • Consistency • Product Integrity • Research Excellence

★ AMG SPECIALTY SERIES ★

DUAL-ACTION METABOLIC FORMULA

NEXT GENERATION WEIGHT MANAGEMENT SUPPORT*

SUPPORTS HEALTHY
WEIGHT MANAGEMENT*

Helps support healthy weight
loss & body composition*

SUPPORTS APPETITE
REGULATION & SATIETY*

Promotes feelings of fullness
& reduces cravings*

ENHANCES METABOLIC
EFFICIENCY*

Supports improved metabolic
rate & energy utilization*

SUPPORTS GLUCOSE
REGULATION*

Helps maintain healthy glucose
metabolism already in range*

SUPPORTS OVERALL
METABOLIC HEALTH*

Promotes overall wellness
& long-term metabolic health*

DUAL PATHWAY. MAXIMUM RESULTS.*

GIP PATHWAY
TIRZEPATIDE 40MG

Enhances glucose-dependent insulin
secretion & improves metabolic
function*

SYNERGISTIC
FAT LOSS &
METABOLIC
OPTIMIZATION*

GLP-1 & GCGR PATHWAYS
RETATRUTIDE 20MG

Supports appetite regulation,
satiety, glucose control &
metabolic health*

— TOTAL FORMULA STRENGTH —

RETA-MAX™

Formula: Tirzepatide 40mg + Retatrutide 20mg | Total 60mg

PRODUCT OVERVIEW

Flagship dual-pathway metabolic research formulation designed for studies involving appetite regulation, metabolic optimization, glucose signaling, and body composition pathways.

KEY FEATURES

- Dual-pathway metabolic research
- Appetite regulation studies
- Glucose signaling investigations

RESEARCH APPLICATIONS

Metabolic pathways, appetite signaling, glucose regulation, body composition

KLOW™

★ AMG SPECIALTY SERIES ★

ADVANCED REGENERATION FORMULA

COMPLETE RECOVERY. TOTAL RESTORATION.*

SUPPORTS TISSUE REPAIR*
ACCELERATES HEALING
Promotes the body's natural repair processes for tissues, joints, and muscles*

ENHANCES RECOVERY*
REDUCES DOWNTIME
Helps speed recovery from injury, strain, and intense physical stress*

SUPPORTS SKIN & COLLAGEN*
YOUTHFUL REGENERATION
Supports skin repair, elasticity, and overall skin health*

PROMOTES IMMUNE BALANCE*
ANTI-INFLAMMATORY SUPPORT
Helps modulate inflammation and supports immune function*

LONGEVITY & VITALITY*
OPTIMIZE. RESTORE. THRIVE.
Supports long-term cellular health, resilience, and vitality*

REPAIR
Supports rapid tissue repair and cell regeneration*

PROTECT
Helps protect cells and tissues from damage & stress*

BPC-157™

RECOVERY & REGENERATION
PEPTIDE

ADVANCED TISSUE REPAIR

POWERFUL HEALING. TOTAL RECOVERY.*

SUPPORTS TISSUE REPAIR*
Promotes the body's natural ability to repair damaged tissues and accelerates healing.*

SUPPORTS RECOVERY*
Helps reduce recovery time from strenuous activity, injuries and surgical procedures.*

SUPPORTS TENDON & LIGAMENT HEALTH*
Promotes strength, flexibility and resilience of tendons and ligaments.*

SUPPORTS GUT HEALTH*
Helps maintain and repair the intestinal lining for optimal digestive function.*

SUPPORTS REGENERATIVE PROCESSES*
Encourages cellular regeneration and promotes overall healing and wellness.*

KEY BENEFITS *

REPAIR
Supports rapid tissue repair and cell regeneration.*

RECOVER
Supports faster recovery and reduces downtime.*

REBUILD
Helps rebuild and strengthen tendons, ligaments & muscles.*

RESTORE
Supports gut lining integrity and digestive tract health.*

CARTALAX™

RECOVERY & REGENERATION
PEPTIDE

JOINT SUPPORT & MOBILITY
SCIENCE. RESTORE. REGENERATE.*

**SUPPORTS JOINT HEALTH***
Helps support cartilage integrity, joint comfort and overall joint function*

**SUPPORTS CARTILAGE REPAIR***
Promotes the body's natural ability to repair and maintain cartilage*

**SUPPORTS MOBILITY & FLEXIBILITY***
Helps improve range of motion and supports flexible, pain-free movement*

**SUPPORTS COMFORT & FUNCTION***
Helps reduce occasional stiffness and supports comfortable daily movement*

**ADVANCED PEPTIDE TECHNOLOGY**
Engineered peptide for joint regeneration and long-term structural support*

**SUPPORTS JOINT HEALTH**
Helps maintain healthy joints and connective tissues*

**SUPPORTS CARTILAGE REPAIR**
Encourages cartilage maintenance and supports repair processes*

**SUPPORTS MOBILITY**
Promotes mobility, flexibility and active lifestyle performance*

**SUPPORTS COMFORT**
Helps reduce stiffness and supports joint comfort*

**ADVANCED PEPTIDE**
Precision peptide technology for structural and functional support*

**20MG**

**PREMIUM RESEARCH GRADE**

**RIGOROUSLY TESTED FOR PURITY**

**cGMP COMPLIANT FACILITY**

**BACKED BY SCIENCE & INNOVATION**

CARTALAX™

Available Strength: 20mg

PRODUCT OVERVIEW

Advanced research peptide studied for connective tissue support, cartilage-related investigations, and recovery-focused applications.

KEY FEATURES

- Connective tissue research
- Cartilage pathway studies
- Structural support research

RESEARCH APPLICATIONS

Cartilage research, connective tissue, musculoskeletal studies

Research Use Only

GROWTH HORMONE & PERFORMANCE

Endocrine, Recovery, and Performance Research

CJC-1295
DAC™

GROWTH HORMONE & PERFORMANCE
— LONG-ACTING PEPTIDE —

ADVANCED GROWTH HORMONE OPTIMIZATION
SCIENCE. PERFORMANCE. RECOVERY.†

**SUPPORTS GROWTH HORMONE RELEASE†**
Stimulates natural growth hormone secretion for optimal results†

**SUPPORTS RECOVERY†**
Promotes faster recovery and helps reduce downtime between intense training†

**SUPPORTS LEAN MUSCLE DEVELOPMENT†**
Helps increase lean muscle mass and improve body composition†

**SUPPORTS SLEEP QUALITY†**
Promotes deeper, more restful sleep for improved recovery and overall well-being†

**SUPPORTS PERFORMANCE OPTIMIZATION†**
Enhances training performance, endurance and overall results†

**HORMONE OPTIMIZATION**
Supports natural growth hormone secretion†

**ENHANCED RECOVERY**
Supports faster recovery and reduces downtime†

**LEAN MUSCLE SUPPORT**
Helps build and maintain lean muscle mass†

**IMPROVED SLEEP**
Supports deeper, more restorative sleep†

**PEAK PERFORMANCE**
Optimizes training performance and overall results†

**5MG**

**10MG**

CJC-1295 NO DAC™

GROWTH HORMONE & RECOVERY PEPTIDE

NATURAL GROWTH HORMONE OPTIMIZATION
SCIENCE. PERFORMANCE. RESULTS.†

- SUPPORTS GROWTH HORMONE RELEASE†**
Stimulates natural growth hormone secretion for optimal results†
- SUPPORTS RECOVERY†**
Promotes recovery and helps reduce downtime between intense training†
- SUPPORTS LEAN MUSCLE DEVELOPMENT†**
Helps increase lean muscle mass and improve body composition†
- SUPPORTS SLEEP QUALITY†**
Promotes deeper, more restful sleep for improved recovery and overall well-being†

KEY BENEFITS†

- NATURAL GROWTH HORMONE SUPPORT**
Supports healthy growth hormone secretion†
- ENHANCED RECOVERY**
Helps the body recover faster and more efficiently†
- LEAN MUSCLE SUPPORT**
Supports lean muscle development and improved physique†
- IMPROVED SLEEP**
Supports quality sleep and overall hormonal balance†
- PEAK PERFORMANCE**
Optimizes training performance and maximizes results†

CJC-1295 No DAC™

Available Strengths: 5mg / 10mg

PRODUCT OVERVIEW

Shorter-acting GHRH analog studied for pulsatile growth hormone release and shorter duration activity in research models.

KEY FEATURES

- Pulsatile release profile
- Short-acting GHRH analog
- Recovery pathway studies

RESEARCH APPLICATIONS

Endocrine research, GH signaling, performance investigations

Research Use Only

IPAMORELIN

GROWTH HORMONE RELEASING PEPTIDE

PEPTIDE

OPTIMIZE. GROW. RECOVER.†
SCIENCE. PERFORMANCE. RESULTS.†

SUPPORTS GROWTH HORMONE RELEASE†
Stimulates the pituitary gland to naturally increase GH secretion*

SUPPORTS LEAN MUSCLE DEVELOPMENT†
Helps increase lean muscle mass and improve body composition*

SUPPORTS RECOVERY & REPAIR†
Aids in recovery and helps support tissue repair*

SUPPORTS PERFORMANCE ENHANCEMENT†
Helps improve endurance, strength and training capacity*

SUPPORTS OVERALL WELL-BEING†
Supports healthy aging, vitality and overall quality of life†

★ KEY BENEFITS ★

STIMULATES GROWTH HORMONE RELEASE†
Supports pituitary function and GH release*

SUPPORTS LEAN MUSCLE GROWTH†
Helps promote lean muscle and strength development*

ENHANCES RECOVERY†
Supports faster recovery and tissue repair*

IMPROVES PERFORMANCE†
Enhances endurance, stamina and overall physical performance*

SUPPORTS OVERALL WELL-BEING†
Promotes vitality, immune health and overall wellness*

Commitment to Excellence

AMG Compounds maintains a commitment to consistency, quality-focused sourcing, and innovation-driven development across the product portfolio.

Research-grade formulations • Lot-controlled production • Consistency-focused sourcing

Innovation-driven development • Quality assurance processes

Storage Guidance: Store products according to recommended conditions. Protect from excessive heat, moisture, and direct light exposure.
